Other: SEO Basics, Digital Marketing, Content Optimization, CRM Dashboard Design, Agile Teamwork, Project Management

Professional Experience

Blue Eagle Infotech PVT ltd | Gurgaon, India *January 2020 –currently*

React JS/ Frontend Developer

- Developed dynamic and responsive web applications using React JS, improving overall user experience.
- Built reusable components and managed application state using React Hooks (useState, useEffect).
- Integrated REST APIs to fetch and display real-time data in web applications.
- Collaborated with backend developers to integrate APIs and ensure smooth functionality.
- Designed and developed 100+ websites using HTML5, CSS3, JavaScript, and Bootstrap for clients across multiple industries.
- Increased user engagement by up to 40% through better UI/UX, improved layouts, and faster page load times.
- Converted PSD and Figma designs into pixel-perfect HTML/CSS pages with full mobile and multi-browser support.
- Built CRM dashboards for a Study Abroad platform, cutting task completion time by 30% and follow-up time by 25%.
- Worked with developers, project managers, and clients to deliver web projects on time and within scope.
- Created social media graphics, banners, and promotional creatives using Photoshop and Canva.

Projects

1.Admissions Overseas – https://www.admissionsoverseas.com/

- Built a complete education consultancy website using HTML5, CSS3, Bootstrap, and JavaScript for a study abroad client.
- Improved site navigation and page structure, which helped increase lead generation and reduce drop-off rate.

2.Omeshan – https://www.omeshan.com

- Designed and developed a fully responsive software company website using HTML5, CSS3, Bootstrap, and JavaScript, improving user experience and performance.
- Improved site navigation and page structure, which helped increase lead generation and reduce drop-off rate.

3. Zozocar – https://lalitkumarbaghel.github.io/zozocar.github.io

- Developed a platform for visa guidance and student applications with simple layout and fast loading pages.
- Improved page speed and browser compatibility, making the site work well on all devices.

4. Maiz Education – https://www.edumaiz.com/

- Built a complete education consultancy website using HTML5, CSS3, Bootstrap, and JavaScript for a study abroad client.
- Improved site navigation and page structure, which helped increase lead generation and reduce drop-off rate.

5. CRM Software – Study Abroad & Immigration

- Built UI dashboards for a CRM tool used by immigration and study abroad teams for daily task management.
- The new dashboard reduced team workload by 30% and cut manual follow-up time by 25%.

6. Study Abroad Website (Full Stack)

- Developed a full-stack Study Abroad web application using React JS, Node.js, and MongoDB.
- Built an admin panel with complete CRUD operations for managing users, applications, and data.
- Integrated REST APIs and implemented dynamic data rendering for real-time updates.
- Designed a fully responsive user interface using Bootstrap for cross-device compatibility.

7. Blog Website

- Developed a Blog web application using React JS for frontend and Express.js for backend.
- Implemented create, update, and delete (CRUD) functionality for blog posts.
- Designed and consumed RESTful APIs for efficient data handling and communication.
- Built a responsive and user-friendly interface for better user experience.

Education

Bachelor of Science (B.sc) – Agra University 2017
12th Grade, (UP-Board) – B T S I C Nagla Gumani Aligarh 2013
10th Grade, (UP-Board) – Shri Pyare Lal Aadarsh Inter Collage Dhansari Aligarh 2010

Additional Information

- Comfortable managing multiple projects simultaneously and consistently meeting deadlines in fast-paced environments.
- Quick learner — actively keeps up with new frontend frameworks, design trends, and AI tools.
- Familiar with SEO basics, digital marketing strategies, and content optimization.
